21st Annual

CINCINNATI GOLF CLASSIC

Dear business leaders and friends,

The burden of cancer is unacceptably high. Approximately 1 in 2 men and 1 in 3 women will get cancer in their lifetime. In 2025 alone, more than 2 million new cancer cases will be diagnosed in the United States, and more than 600,000 people will die from cancer. Cancer affects everyone, but it doesn't affect everyone equally. Through events like our Cincinnati Golf Classic, we can help the American Cancer Society provide hope to those who face this disease.

When you choose to partner with the American Cancer Society, you choose to support an organization that is working around the clock to reduce the burden of cancer in every community. This organization is continuing to discover new ways to treat and prevent cancer, improve the quality of life of those living with a diagnosis, provide critical patient services, and advocate for improved access to care.

In the past 20 years, the Cincinnati Golf Classic has raised over \$6.7 million to help the American Cancer Society continue to fund life-saving research as well as free programs and services for cancer patients and their families in our community and across the nation. We know with your participation, we can help to make this cancer's last century.

We hope to see you on the course!

About the American Cancer Society

The American Cancer Society is on a mission to free the world from cancer.

We are the only organization that integrates discovery, advocacy, and direct patient support to measurably improve lives. Our efforts in these areas have contributed to a 32% decline in cancer mortality since 1991.

ADVOCACY

By activating grassroots volunteers nationwide, the American Cancer Society Cancer Action NetworkSM (ACS CAN) fights cancer in city halls, statehouses, and Congress by elevating the patient voice to advance policy change. We are making cancer a national priority through our advocacy efforts.

DISCOVERY

The American Cancer Society has played a role in most of the cancer research breakthroughs in recent history. As the largest nonprofit funder of cancer research in the US outside of the federal government, we've invested more than \$3.1 billion in cancer research since 1991, contributing to the 3.5 million fewer cancer deaths as a result of breakthroughs.

PATIENT SUPPORT

The American Cancer Society works to ensure no one feels alone at any point on their cancer journey, from prevention to detection and diagnosis, through treatment and survivorship, and, for some, the end of life. We ensure people impacted by cancer have the support, information, and resources they need, all aimed toward eliminating cancer disparities.

Announcing the 2025 Honoree

Dr. Douglas Flora St. Elizabeth Healthcare

Dr. Doug Flora is the Executive Medical Director of Oncology Services, and The Robert and Dell Ann Sathe Endowed Chair in Oncology at the St. Elizabeth Healthcare – The Yung Family Cancer Center headquartered in Edgewood, Kentucky.

Dr. Flora graduated from The Ohio State University College of Medicine in 1999. With a distinguished career spanning over two decades, he is a steadfast advocate for whole-person care and medical innovation. His leadership and vision have led to cutting-edge technology and treatment protocols and improved patient outcomes.

As the Editor-In-Chief for the pioneering peer-reviewed research journal *AI in Precision Oncology*, Dr. Flora plays a pivotal role in medical education and research, nurturing the next generation of healthcare leaders. His perspective is enriched by personal experience as a practicing oncologist, senior healthcare executive, and most importantly, a cancer survivor.

Dr. Flora is a Board Member of the American Cancer Society, serves on the Executive Board of the Association of Community Cancer Centers as Treasurer, and is a Board Member of the Kentucky Society of Clinical Oncology. He enjoys international travel with his family in his spare time.
